Update 32 of TCEQ Air Section Activities - 3/26/2019 2200 hours through 3/27/2019 0600 hours

All,

Attached are handheld monitoring field data sheets of the air monitoring conducted by TCEQ investigators from March 26, 2019 at 2200 hours to March 27, 2019 at 0600 hours. In addition, attached are handheld monitoring field data sheets of the air monitoring conducted by SWS contractors from March 26, 2019 at 1800 hours to March 27, 2019 at 0600 hours.

At approximately 2057 to 2102 hours on March 26, 2019 SWS Team 2 detected a benzene reading of 1.00 ppm at a north-south utility right of way intersecting 2168 E. Pasadena Boulevard, Deer Park (N29.67945, W095.10245). In addition, a sweet paint odor was detected at approximately 2057 hours.

At approximately 2131 to 2141 hours on March 26, 2019 SWS Team 2 detected a benzene reading of 0.50 ppm at 2886 Luella Ave., Deer Park, Texas (N29.68541, W095.11324). In addition, a very slight sweet paint odor was detected at approximately 2131 hours.

No other air monitoring readings above the action levels identified by unified command were detected during the air monitoring surveys. Other odors detected during the surveys appeared to be unrelated (e.g. garbage odor).

The Air Section will provide the next update on March 27, 2019 at approximately 1500 hours with information from area surveys and monitoring conducted from March 27, 2019 at 0600 hours to March 27, 2019 ending at 1400 hours.

Regards,

Mark Kolkmeier
